TSCNET Services welcomes Doris Barnert from Swissgrid to the Supervisory Board

Munich, Germany – Doris Barnert, Head of Corporate Services and Chief Financial Officer of Swissgrid, the Swiss electricity transmission system operator (TSO), has been appointed a member of the Supervisory Board of Munich-based TSCNET Services (www.tscnet.eu), one of the leading Regional Security Coordinators (RSC) for the European electricity transmission grid.

"As a Regional Security Coordinator, TSCNET plays an important role in the secure operation of the European transmission network. We welcome Swissgrid's commitment and the expansion of financial competence represented on our board," said Dr. Rainer Pflaum, Chairman of the TSCNET Supervisory Board, who has been a member of the Management Board of the German TSO TransnetBW since 2010. The TSCNET Supervisory Board consists of representatives of a group of 14 European Transmission System Operators who are the shareholders of TSCNET Services GmbH.

Doris Barnert graduated as an architect from ETH Zurich and holds an MAS in Corporate Finance and an Executive MBA HSG. On 1 April 2017 she was appointed member of the Executive Board and Chief Financial Officer of Swissgrid. "The increasing importance of the RSCs in Europe and the central role of Switzerland in the European transmission grid will make this supervisory role an interesting opportunity to support the further development of TSCNET Services," said Ms Barnert.
